

## Mentoring Makes a Difference

### Volunteer for JA's Company Program – A Student Venture

Junior Achievement of British Columbia presents an opportunity to make a difference.

We're looking for volunteers to mentor a group of student entrepreneurs (15- to 18- year-olds) as they create and run their own business in Company Program – A Student Venture. This is your chance to connect with young people and help them discover and develop their entrepreneurial and leadership talents.

#### Inspire Students. Make A Positive Impact.

Get students excited about business and prepare them for the challenges of today's workforce. Help them to:

- Research product and service ideas
- Develop business plans and final reports
- Market and sell their product or service
- Track finances and set up records

#### Help Bridge the Talent Gap. Get Involved Today.

You'll meet students in a school or community setting, working with either a teacher (for the in-school format) or a team of volunteers (for the after-school programs) over the course of 3 to 5 months.

Don't miss this opportunity to get involved and share your knowledge and experience. Visit our website at [www.jabc.org](http://www.jabc.org) for more information.

#### What are Students and Volunteers Saying?

*"The best part was to actually create and form our company by scratch and actually perform the various duties necessary in a business. That was the best experience ever. It's perfect!"*  
Grade 12 Student  
Britannia Secondary

*"I am very impressed with the program... there is a great sense of pride from the entire class I will miss this class when the experience is over."*  
Volunteer Advisor  
Johnston Heights Secondary

*"The program surpassed my expectations and I couldn't have asked for a better team to work with!"*
