

Teach teens to make sense of money

Volunteer for JA's Investment Strategies Program

Junior Achievement of British Columbia is looking for volunteers to teach our business education programs. Advise grade 9 & 10 students (14 & 15 year olds) how to use an online stock market simulation game and manage their mock portfolios of \$100,000. Show them how to find and track stocks on the TSE, NYSE and NASDAQ. You'll make five 1-hour visits to a school in your community and support the teacher to run the game. Programs start in mid-October or mid-April.

We're looking for people who can make the game 'come alive' and help students:

- Learn about the different types of stocks – and costs
- Read and understand market summaries and stats
- Research prospects
- Understand the difference between stocks and mutual funds

Do it for fun and personal satisfaction:

- Show teens how the stock market really works
- Get students excited about careers in finance and investment industries
- Exercise your presentation and coaching skills

Volunteer with a world-recognized leader of business education programs for youth. We will provide the orientation, materials and support to make your volunteer experience fun, meaningful and easy to deliver.
