Economics of Staying in School (ESIS)

▲ **Grade 8** ▲
Time Commitment
Delivery of Program: 1 full day

Economics of Staying in School (ESIS) has a specific purpose: to encourage students to consider & reflect on the advantages of remaining in school until they have acquired the knowledge, attitudes and skills to undertake the longer-term goal of a successful career.

Students learn about the relationship between education & personal goals by:

- ▲ Defining success in personal terms
- ▲ Understanding the cost of living
- ▲ Exploring the types of careers that match their goals & lifestyle expectations

Links to Current Education

Curriculum:

- ▲ Language & Communication
- ▲ History & Geography
- ▲ Mathematics
- ▲ Guidance & Career Planning

The ESIS 4 Module Program helps students learn to develop a positive attitude towards education & their future by exploring the concepts of:

- ▲ Success
- ▲ Independence
- ▲ Employment
- ▲ Futures

In this program, students will:

- ▲ Describe factors that affect a person's chance for success in the workplace
- ▲ Relate educational attainment to earning potential
- ▲ Relate earning potential to future aspirations
- ▲ Summarize their current skills & talents
- ▲ Practice the application process for jobs
- ▲ List the benefits & opportunities available to those who complete post-secondary education
- ▲ Describe opportunity trade-offs involved in leaving school
- ▲ Develop job search skills
